

133 # ANVIL FOR SALE. IMPRINT ON SIDE IS CONSISTANT WITH A HAY-BUDDEN ANVIL.

“MANUFACTURING BROOKLYN, N.Y. 1 3 3 ” IS STILL VISIBLE.

The anvil measures 25” inches from the tip of the horn to the back. It is 10 ½” high and 3 5/8” wide. The base is 9” x 10”. The horn is 10 ½” long. The Hardy hole measures 1” square. The anvil is mounted on an oak stump. The anvil is located for pickup only in Salado, TX. \$450 Contact: David Mikulencak. stinmill@mac.com

Coal Forge including a Champion geared hand-cranked blower and tuyere.

The forge stands 31" tall and is 45 ½" long and 31 ½" wide. It is cast iron on pipe legs. The blower works well and the forge has been dependable. I am moving and will not be able to do blacksmithing in my new location. This is a great starter forge for the beginner. More photos on request. \$375.
