

HABA

Gas Forge Workshop

September 20, 2003

Who : Houston Area Blacksmiths Association
See www.habairon.org for more information.

What : Building and Using Gas Forges for Blacksmithing

When : Saturday September 20, 2003 at 8 AM

Where : C&M Sales
3565 S.Loop 336 East
Conroe, Texas
800-392-7002

HABA has selected Jay Hayes of C.J. Products as the kit provider for their Workshop on Gas Forges in September. Several sizes and number of burners are available and this allows the blacksmith to choose one to fit budget and need. The single burner is a good starter kit to learn the basics with and makes a good traveling size forge. All parts and supplies can be ordered separately. We will also discuss and demonstrate how to use this and other commercial forges and burners.

The basic kits include (for 1, 2, or 3 burner) :

- Fuel Saver Valve Manifold
- Ceramic Fiber Liner, Ceramic Fiber End Boards, Support Blocks
- Super Duty Floor Bricks
- ITC-100 Ceramic Coating
- LP Gas Regulator, Hose, and Gage
- 11ga. steel cylindrical Shell, Feet, Bracket
- Complete Burner Kit(s) with Mount Tube

One burner LP gas Mini Forge Kit	10" OD x 12" Long	\$185.00
One Burner LP gas Forge Kit	12" OD x 12" Long	\$205.00
2 burner LP gas Forge Kit	12" OD x 18" Long	\$300.00
3 burner LP gas Forge Kit	12" OD x 24" Long	\$355.00
3 burner LP gas Forge Kit	14 " OD x 24" Long	\$385.00

The kits can be ordered and shipped to you in advance!
